

- 1) BoardHub
- 2) Inusah Diallo(iad5wr@virginia.edu) Furhan Khan(fsk2pd@virginia.edu)
Raghava(rp2zd@virginia.edu) Tracy(hh3cz@virginia.edu)
- 3) Custom made to order skateboards that can be either electric or not
- 4) There are no websites that allow the user to create custom skateboards and also allow the user to specify between electric and traditional skateboards. This website will allow users to choose the specific parts they need for their skateboards and also aesthetic designs. Normally people would have to go to a multitude of places and websites to find all the parts they need for their custom skateboards which can be a stressful and frustrating processing. With our website that is no longer a concern as all parts necessary to build a custom skateboard are available in single easy to use location.
